REPORT OF AD HOC COMMITTEE ON BLUE CARD RATES

As amended during the March 27, 2014 Board Meeting

Plain English Definitions for each Blue Card Service Charge

Blue Card Service Codes and charges refer to the description of services and fees applied when a San Francisco Bar Pilot pilots a vessel on a transit other than (1) an uninterrupted passage from sea to a port or berth in San Francisco or San Pablo Bay between the UPRR Bridge to the north and Hunter’s Point to the south; or (2) an uninterrupted return of a vessel from one of these ports or berths to sea. Thus vessels proceeding to or from a berth that is beyond the UPRR Bridge to the north (e.g. berths at Avon, Port Chicago, Pittsburg, Antioch, or Stockton/Sacramento) or beyond Hunter’s Point to the south (e.g. a berth in Redwood City) incur an additional charge as set forth in the Blue Card rates. Fees for moving a vessel within the Bay from one berth to another, or from a berth to an anchorage are also set forth in the Blue Card rates.

Background: Prior to the passage in 1984 of Assembly Bill No. 1768 (Papan) which amalgamated inland and bar piloting, the minimum fees charged by Inland and Independent Pilots were set forth in a schedule entitled “Ship Pilots’ Fees, Pacific Maritime Region, San Francisco Bay and Tributaries” and published by the local branch of the Masters, Mates and Pilots Union. This schedule was printed on blue paper and came to be known simply as the “Blue Card Rates.”

As a result of the 1984 legislation, Harbors and Navigation Code ("HNC") Section 1191(a) was adopted, directing the Board of Pilot Commissioners to recommend that the Legislature adopt by statute a schedule of piloting rates for ship movements or special operations that were not specified in Section 1190 (which applied only to bar piloting.) Section 1191 (c) provided:

“Until a schedule is adopted by the Legislature pursuant to subdivision (a), on and after January 1, 1985, the minimum rates charged by pilots or inland pilots for ship movements and internal operations shall be the schedule of ship pilot fees, Pacific Maritime Region, San Francisco Bay and tributaries, then in effect.”

Legislation in 1988 deleted the introductory phrase “Until a schedule is adopted by the Legislature . . .” but otherwise referred to the same schedule and increased the fees that were in effect on December 30, 1988 by 20%.

Legislation in 1990 amended Section 1191(c) that changed the reference to “the schedule of ship pilot fees published by the San Francisco Bar Pilots on January 1, 1990.” In 1995, Section 1191(c) was again amended to refer to “the schedule of ship pilot fees recommended for

Final Report of Ad Hoc Committee on Blue Card Rates as amended during the March 27, 2014 Board Meeting
adoption by the board on June 22, 1995, and published by the San Francisco Bar Pilots.” 1996
and 1999 legislation changed the date of the board’s recommendation (to June 1996 and
January 1999, respectively), but otherwise kept the same language.

Legislation in 2002 deleted the entire existing subsection (c), and with it, the reference to the
schedule “published by the San Francisco Bar Pilots.” Instead, it simply referred to specified
increases to “the minimum rates imposed pursuant to this section that are in effect on [a
specified date.]”

This history may help put into context the individual rates and use of terms in the schedule that
is currently in effect.

The “Blue Card” rates charged pursuant to Section 1191 are published on the SFBP’s website
(www.sfbarpilots.com) and entitled “San Francisco Bar Pilots - Service Code and Charge
Listing,” followed by the effective date.

A “Code” in the left hand column is used by the pilots to simplify computer entries. Each Code
is followed by a service description, and the fee or rate charged. A further description of the
Codes and definition of terms follow below.

I. BAR PILOTAGE

The first two Code entries, 891 IN and 891 OT are for bar pilotage, the rates for which are
established by HNC Section 1190, and which are not part of the Blue Card rates.

Bar pilotage is defined in HNC Section 1190(b) as “pilotage that passes through the Golden Gate
to or from the high seas to or from a berth within an area bounded by the Union Pacific
Railroad Bridge to the north and Hunter’s Point to the south.”

Code 894 IN provides for a half-pilotage charge to a vessel entering a port in Monterey Bay or in
the Bays of San Francisco, San Pablo or Suisun solely by reason of being in distress or requiring
care, as authorized by HNC Section 1192. This too is not part of the Blue Card rates. [The rates
are 50% of the rates set by HNC 1190(a).]

II. ADDITIONAL CHARGES TO BAR PILOTAGE

Codes 617 SC to 622 SC set forth the additional charge for a vessel proceeding from sea to a
berth south of Hunter’s Point or to a berth north of the UPRR Bridge. The current reference to
the “S P Bridge” is a holdover from the predecessor schedules in effect before the Union Pacific
Railroad took over operation of the bridge. With the exception of “Martinez Terminal”
(defined below), each of the six codes refers to a discrete geographic area, port or berth, which
can be found on the nautical charts issued by the National Oceanic and Atmospheric

Final Report of Ad Hoc Committee on Blue Card Rates as amended during the March 27, 2014 Board
Meeting
Administration (NOAA), a federal agency in the U.S. Department of Commerce, and in a publication entitled “United States Coast Pilot 7” also issued by NOAA. Both are standard references used by mariners. (Avon and Port Chicago are also described in the definitions section at the end of this Report.)

III. BAY AND/OR RIVER MOVES/SHIP-SHIFTING CHARGES

(BM=Bay/River Move; BA=Flat Tow)

The Service Descriptions for Codes 601 BM(BA) through 633 BM(BA) describe the geographic areas, terminals or ports between or within which the designated ship movements occur. Most terms are self-evident and found on navigational charts and in the Coast Pilot referenced above. Definitions of additional terms (noted in all capital letters) used in these Service Codes follow the descriptions below.

**Code 601 BM SF (SOUTH OF NORTH END OF T.I.) TO HUNTERS POINT:** Any move entirely within San Francisco Bay, including Oakland and Alameda, south of the north end of Treasure Island to Hunter’s Point.

(601 BA would be used for a FLAT TOW within the same geographic area as 601 BM. “FLAT TOW” is defined below.)

**Code 602 BM SF AREA TO RICHMOND, PT. SAN PABLO:** Any move entirely within SF AREA exclusive of moves under Code 601 BM.

**Code 603 BM SF AREA TO SOUTH OF HUNTERS POINT:** Any move between SF AREA and points south of Hunter’s Point.

**Code 604 BM SF AREA TO SEQUOIA, OLEUM:** Any move between SF AREA and OLEUM, including SEQUOIA and Selby terminal.

**Code 605 BM SF AREA TO AVON, MARTINEZ TERMINAL:** Any move between SF AREA and AVON, including the MARTINEZ TERMINAL.

**Code 606 BM BETWEEN OLEUM, S P BRIDGE AND AVON:** Any move from the area bounded by OLEUM, Mare Island and the UPRR BRIDGE, to MARTINEZ TERMINAL or AVON, and the reverse route.

**Code 607 BM BETWEEN AVON, PORT CHICAGO AND PITTSBURG:** Any move within the area bounded by AVON and Pittsburg, including PORT CHICAGO.

**Code 608 BM SF AREA TO NORTH EXTREMITY SUISUN BAY:** Any move between SF AREA and Pittsburg.

Final Report of Ad Hoc Committee on Blue Card Rates as amended during the March 27, 2014 Board Meeting
Code 609 BM  SF AREA TO MARE ISLAND, VALLEJO, MARTINEZ, BENICIA: Any move between 
SF AREA and Mare Island, Vallejo and Carquinez Strait east of the Carquinez Bridge and west of 
the UPRR BRIDGE.

Code 610 BM  BETWEEN SEQUOIA, OLEUM, MARE ISLAND AND S P BRIDGE: Any move within 
the area bounded by OLEUM (including the former SEQUOIA terminal), Mare Island and the 
UPRR BRIDGE.

Code 611 BM  BETWEEN OLEUM, S P BRIDGE AND NORTH SUISUN BAY: Any move from the 
area bounded by OLEUM, Mare Island and the UPRR BRIDGE to Pittsburg, and the reverse 
route.

Codes 612 BM – 614 BM - not currently utilized.

Code 615 BM  SF AREA TO PORT CHICAGO: Any move between SF AREA and PORT CHICAGO.

Code 616 BM  BETWEEN OLEUM, S P BRIDGE AND PORT CHICAGO: Any move from the area 
bounded by OLEUM, Mare Island and UPRR BRIDGE to PORT CHICAGO, and the reverse route.

Codes 617 BM – 622 BM - not currently utilized for Bay Moves. See Section II above for Codes 
617 SC – 622 SC.

Code 623 BM  BETWEEN SAN FRANCISCO AND SACRAMENTO: Any move between SF AREA 
and Sacramento.

Code 624 BM  BETWEEN SAN FRANCISCO AND STOCKTON: Any move between SF AREA and 
Stockton.

Code 625 BM  SACRAMENTO TO STOCKTON: Any move from Sacramento to Stockton.

Code 626 BM  STOCKTON TO SACRAMENTO: Any move from Stockton to Sacramento.

Code 627 BM  SHIFTING AT SACRAMENTO OR STOCKTON: Any intraport move at Sacramento 
or Stockton.

Code 628 BM  SF AREA AND ANTIOCH: Any move between SF AREA and Antioch.

Code 629 BM  BETWEEN OLEUM, S P BRIDGE AND ANTIOCH: Any move from the area bounded 
by OLEUM, Mare Island and UPRR BRIDGE to Antioch and the reverse route.
Code 630 BM BETWEEN OLEUM, S P BRIDGE AND SACTO/STOCKTON: Any move from the area bounded by OLEUM, Mare Island and UPRR BRIDGE to Sacramento or Stockton and the reverse route.

Code 631 BM BETWEEN AVON, PORT CHICAGO AND ANTIOCH: Any move from the area between AVON and PORT CHICAGO to Antioch and the reverse route.

Code 632 BM BETWEEN AVON, PORT CHICAGO AND SACTO/STOCKTON: Any move from the area between AVON and PORT CHICAGO to Sacramento or Stockton and the reverse route.

Code 633 BM BETWEEN PITTSBURG, ANTIOCH AND SACTO/STOCKTON: Any move from the area between Pittsburg and Antioch to Sacramento or Stockton, and the reverse route.

IV. VESSEL LENGTH CHARGE

Code 895 SC describes the additional charge for vessels 600 feet or greater, and how that charge is calculated. The Base Rate is the applicable charge or charges from Sections II and III above.

“Length” is the Length Overall (LOA) as reported on the Vessel’s General Particulars or Pilot Card or reported in Lloyd’s Register of Ships, converted to feet.

“A” is the additional charge for ships from 600 feet in length up to but not including 625 feet in length and is 14% of the Base Rate.

“B” is the charge for ships from 625 feet in length up to but not including 650 feet in length and is the sum of the charge for A plus 4% of the charge for A.

“C” is the charge for ships from 650 feet in length up to but not including 675 feet in length and is the sum of the charge for B plus 4% of the charge for B.

“D” is the charge for ships from 675 feet in length up to but not including 700 feet in length and is the sum of the charge for C plus 4% of the charge for C.

For ships 700 feet in length and above, an additional 4% is charged for each increment of 25 feet, computed as above.

MISCELLANEOUS CHARGES

Code 817 DD DOCK TO DOCK, EXCLUDING ABOVE ANTIOCH: BAY MOVES originating at a dock and terminating at a dock, excluding above Antioch. (This charge is doubled for a FLAT TOW.)

Final Report of Ad Hoc Committee on Blue Card Rates as amended during the March 27, 2014 Board Meeting.
**Code 818 AD DOCK STERN-IN OR DOWN-TIDE (BM/BA):** Any move in which the vessel must be maneuvered stern-in to a berth or landed DOWN-TIDE. This charge is the higher of 14 percent of the applicable charge(s) from Sections II and III above or $101. (The charge is doubled for a FLAT TOW.)

**Code 821 AD ADJUST COMPASS, RDF, RADAR - 1 SWING:** Ship maneuvers using a pilot to facilitate a compass adjustment, or adjustments to other navigation equipment that require a ship to be turned in various directions. One swing is changing the ship’s heading by up to 360 degrees.

**Code 822 AD ADJUST COMPASS, RDF, RADAR - 2 SWINGS:** Ship maneuvers using a pilot to facilitate a compass adjustment, or adjustments to other navigation equipment that require a ship to be turned in various directions. “Two swings” is changing the ship’s heading by more than 360 degrees.

**Code 831 SB STANDBY TIME PER HOUR:** Hourly charge when a vessel fails to get underway within one hour of the time provided in its request for a pilot, or when a vessel fails to arrive within one hour of the time provided in its request for a pilot. This charge is charged in ½ hour increments for every half hour or portion thereof.

**Code 840 CP CANCEL SERVICE LESS THAN 4 HOURS:** Charge for cancelling an order for a pilot with less than four hours’ notice prior to the time provided in its request for a pilot.

**Code 840 DT PILOT CARRIED AWAY, PER DAY:** Charge when a pilot is unable to safely disembark at the offshore pilot station (for example, due to weather or damage to the pilot ladder) and is forced to ride the ship to its next port. This charge was adopted by the Legislature subsequent to the adoption of HNC Section 1122 and is therefore the applicable charge. This charge is charged in 24-hour increments from the time the vessel arrives at the offshore pilot station until the pilot disembarks the ship at its next port. This charge is in addition to all expenses incurred in returning.

**Code 841 CN CANCEL AFTER PILOT REPORTS:** Charge for cancelling the pilot job order after the pilot reports on board the vessel.

**Code 845 EX PILOT ON BOARD EXCESS 8 HOURS, PER HOUR:** Hourly charge when a pilot is on board the same vessel for more than eight hours.

**Code 851 ET ENGINE OR DOCK TRIALS PER HOUR:** Hourly charge for pilotage service while vessel is conducting engine or dock trials.

**Code 853 AN ANCHORING AFTER DEPARTURE:** Additional charge for any bay or river move or transit to sea that results in anchoring the vessel. (This charge is doubled for a FLAT TOW.)

Final Report of Ad Hoc Committee on Blue Card Rates as amended during the March 27, 2014 Board Meeting.
Code 871 DT DELAY ENROUTE, INCLUDING VTS ORDERED, PER HOUR: Hourly charge whenever a vessel transit is interrupted, delayed, or slowed, for any cause (for example, due to berth congestion, weather, or directions by the U.S. Coast Guard Vessel Traffic Service), such that the net delay time exceeds ½ hour. Net delay time is the difference between how much time the job would have required without the delay and the actual time spent on the job. This charge is charged in ½ hour increments for every half hour or portion thereof, with a minimum charge of one hour.

Code 899 CM CREDIT MEMO - This code is no longer in use.

Code 899 DM DEBIT MEMO - This code is no longer in use.

Code TPINS TRIP INSURANCE COVERAGE (per move, if accepted): Charge for trip insurance authorized by HNC Section 1198.

Definitions of Terms used in Service Codes

Avon is located approximately 1.5 nautical miles east of the UPRR Bridge.

"Bay Move" is any move partially or wholly within the Bays of San Francisco, San Pablo or Suisun.

"Down-tide" is a term used in docking a vessel at a berth with a following current.

"Flat Tow" is the movement of a vessel without the use of its own means of propulsion - either a barge or a dead ship.

"Dead ship" is a vessel that has (or had) its own means of propulsion, but those means are not available for that movement.

"Martinez Terminal" is the first terminal upriver from the UPRR BRIDGE and adjacent to AVON.

"North Extremity Suisun Bay" is any berth in Pittsburg.

"North Suisun Bay" is any berth in Pittsburg.

Oleum is located at the western end of Carquinez Strait.
Port Chicago is located approximately 5 nautical miles east of the UPRR BRIDGE and is the site of the former Naval Weapons Station.

"Sequoia" is a former terminal adjacent to OLEUM that was dismantled and is no longer marked on the nautical charts.

"SF Area" is San Francisco Bay between Hunter's Point and Point San Pablo.

SP Bridge/UPRR Bridge is the lift bridge currently operated by the Union Pacific Railroad that crosses the eastern end of Carquinez Strait.
